Sermon: Pastor Casey Hurst- Hoping for What We Do Not See

Date: 11-5-2017

- **Over the course of life how has the view of your FUTURE impacted the PRESENT? Have you found it to be true that your vision of what is to come has flavored the life in front of you?**
- **From #1 - What impact did this (whether positive or negative) have on your joy? On your relationships with others? On your relationship with God?**
- **Remembering we are CHILDREN in the Family of God is one way we might feel secure in the face of life's unpredictability and suffering. The comfort in this might vary all depending on your family situation. Is this a helpful or less helpful metaphor for you?**
- **Have you experienced an Assyrian event? Something in life that so shook you or seemingly took everything that you questioned God or His nature? Did God, or IS God presently, at work in showing you He also cares about your future? Can you see where He was at work that you COULD NOT when in the depths of hardship?**
- **How can your group, this church, your pastors, and other Christian brothers and sisters come alongside you in this season of your life? How might OTHERS serve you? How can we help?**
- **What needs do you see around you where you know others are hurting? What can you, your family, or your Life Group do to be Christ's hands and feet to show HOPE and remind that God has a FUTURE?**
