Sermon: The Test That Students Give to Teachers

Date: 5-13-18

- **Think about your time in high school or college. Was there a time when the class wanted to challenge a teacher to take one of their own tests?**
- **If we're unwilling to ever learn from *any* new perspectives, that isn't healthy. But, we need to be careful about what those new influences are. Have you ever seen someone (or a group) who was closed off to outside influence? What was the result?**
- **Numbers 11 indicated something that was not a proper test for spiritual teachers. What was it? How have you seen churches try to employ this "test" nonetheless?**
- **What is the main lesson from Miriam and Aaron's opposition to Moses? Try to put it in your own words.**
- **Where do you see examples of this in the broader Christian church today?**
- **Pray for those in positions of spiritual authority. Ask God to direct their thoughts, and to give them a strong commitment to His Word. Pray for local churches to have wisdom regarding how to respond to errant voices.**
