

Life Group Discussion Questions

Sermon: How to Grow with Joy

Date: 8-12-18

- **As Philippians begins, we see the importance of Christians being part of a local church. How would you rate your involvement at Antrim – not in comparison to others, but in comparison to what it should be?**
- **If something needs to change with your church involvement, what might be a good next step?**
- **Paul also talks about elders and deacons. Where is Antrim doing well in this regard? Where could we do better?**
- **Think about your thought patterns for a minute. What types of thoughts are most natural for you?**
- **What's something practical you could do to be more intentional with your inner thought life? How could you become as "tuned in" to God as many people are to their smartphones?**
- **What's something you tend to place your confidence in besides God Himself? How would true confidence in God affect your heart day to day?**
- **Pray that peace and grace from God would fill the lives of your group members.**
