

## **Life Group Discussion Questions**

### **Sermon: How to Be Humble with Joy**

**Date: 9-9-18**

- **Our background, families of origin, or church tradition can greatly influence our idea of what humility is. When you hear the word "humility" -- what automatically comes to mind? Is it positive, negative, something else?**
- **Paul indicates in vss.3-4 that we have personal responsibility in how we act toward others. Despite that, human effort alone will come up short in being "humble." How has the Holy Spirit made it possible for you to live out a humble Christian life?**
- **If comfortable doing so, have the group members share when each finds it difficult to live out verses 3-4.**
- **How can the group encourage its own members to walk more deeply in the direction Paul encourages? How can we continue to adopt humility as a lifestyle at home, work, and in church?**
