

Life Group Discussion Questions

Sermon: How to Tremble with Joy

Date: 9-23-18

- **What does it mean to “work out your own salvation”? What does this look like in your own life?**
- **“God must work in us before He can work through us.” How has this statement been true in your own life?**
- **How can the double agency of God’s sovereign working and human choice help you process when someone harms you? What practical difference does it make?**
- **Do you tend toward either self-reliance (forgetting to rely on God) or passivity (forgetting your effort matters) in relation to spiritual growth?**
- **If you were to do the chart exercise (measuring time invested in spiritual growth and time invested in things that don’t last), how would you fare? What’s at least one practical change you realize you should make?**
- **Pray that each member of your group would behold Christ (think of last week’s passage in 2:5-11) in such a way that they would obey “with fear and trembling.”**
