Discussion Questions:

1. In the past, what would you have said was "the point" of Noah and the Ark? How does today's message influence your reading not only of Noah, but of other Bible stories as well?
2. What are some implications of what Noah and his family did immediately *after* the Flood? What are some practical ways for you to live as part of the "community of faith in a renewed creation" in this time and place?
3. What are some lessons about the character of God that the story of Noah shows us? When you think about these insights, how can they inform the way *you* relate to the world around you right now?
