### **Discussion Questions:**

- In what ways have you seen modern idols give destruction in the very area where they had promised life?
- What are some areas where you're tempted to believe outcomes are due merely to "chance" and not to God's providential working of His plan? How does this passage help you see that God has arranged the whole universe to display His glory?
- In what ways do you find yourself still trying to approach God on your terms rather than His? What's one practical difference that truer resting in Christ's completed work would make in your own life?
